

ADDING A MEDIASITE PRESENTATION TO A PAGE

Once a presentation has been uploaded to Mediasite, it can be embedded into a page within Canvas. This allows students to seamlessly access the video without leaving the LMS. To add it to a new Canvas page:

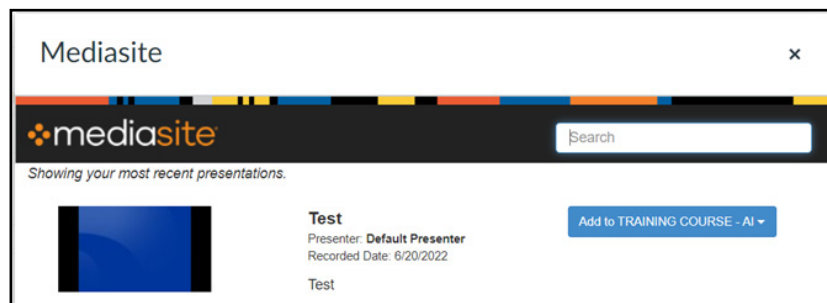

1. Navigate to **Pages** in the course navigation pane.

2. Click **View All Pages** in the top left.
3. Click **+Page** in the top right corner.
4. Enter a name for the page and any additional settings.
5. In the top menu bar, click the **Mediasite icon**.

- a. If the icon is not visible, click the down arrow next to the **plug icon** and locate Mediasite.
6. Locate the presentation that needs added and click **Add to [Course Name]**.
 - a. Select the method that the presentation will be embedded with.

7. The video should now be embedded.
8. Add any additional content to the page and select **Save**.
