THE OFFICE FOR **ACADEMIC INNOVATION**

The Office for Academic Innovation at Texas A&M University is committed to inspiring innovation through transformational teaching and learning.

We seek to create and support a digital learning environment that prioritizes student success.

HOW THE STUDENT OBSERVER ROLE SUPPORTS YOUR ACADEMIC SUCCESS:

The Office for Academic Innovation has partnered with the Center for Student-Athlete Services to create a process for your course instructors to opt in to the Observer program each semester. If your course instructors choose to *opt in*, scholastic supervisors will be enrolled as Student Observers in your course.

Student Observers have *read-only* access to the following areas of your course(s):

PERMISSIONS	STUDENT OBSERVER
Announcements - view	✓
Assignment Submissions - view	✓ This includes Group assignment submissions
Assignment Submissions - submit	
Course Content - view	✓
Discussions - view	✓
Discussions - create/post/modify	
Discussions - reply
