

ADDING A MEDIASITE PRESENTATION TO A PAGE

Once a presentation has been uploaded to Mediasite, it can be embedded into a page within Canvas. This allows students to seamlessly access the video without leaving the LMS. To add it to a new Canvas page:

1. Navigate to **Pages** in the course navigation pane.

View All Pages

2. Click **View All Pages** in the top left.
3. Click **+Page** in the top right corner.
4. Enter a name for the page and any additional settings.
5. In the top menu bar, click the **Mediasite icon**.
 - a. If the icon is not visible, click the down arrow next to the **plug icon** and locate Mediasite.

6. Locate the presentation that needs added and click **Add to [Course Name]**.
 - a. Select the method that the presentation will be embedded with.

Add Video

Search

Or

Upload New

7. The video should now be embedded.
8. Add any additional content to the page and select **Save**.
