

ADDING A MEDIASITE QUIZ TO CANVAS

Once a Mediasite presentation has been created with a quiz, that quiz can be linked to an Assignment in Canvas to be used as a grade. To add the quiz to the assignment:

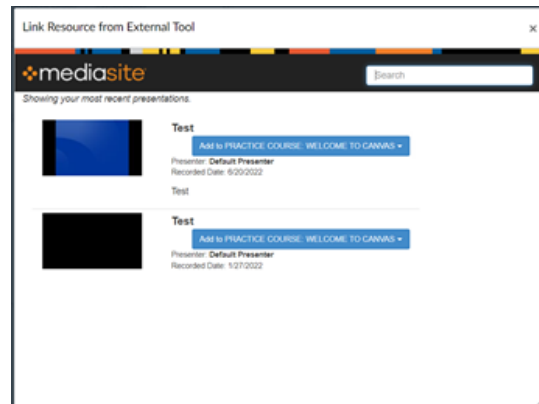

1. Navigate to **Assignments** in the course navigation pane.
2. Click **+Assignment** in the top right corner.

3. Fill out the appropriate settings for the assignment.
4. Under **Submission Type**, select **External Tool**.

5. Click the **Find** button.
6. In the pop-up window, locate **Mediasite Assignment**.
7. Locate the Mediasite presentation that needs to be added and click **Add to [Course Name]**.
 - a. Choose the method that the video will be attached with.

8. In Canvas, click **Select**.
9. **Save and Publish** the assignment.

Mediasite will passback the grade to Canvas. Any differences between points will automatically be converted. For example, if the Mediasite presentation quiz is only worth 10 points and a student receives 9/10, but is labeled as 100 points in Canvas, Canvas will convert the score to 90/100.
