

# EMBED A MEDIASITE PRESENTATION TO A MODULE

Once a presentation has been uploaded to Mediasite, it can be embedded into a module within Canvas. This allows students to seamlessly access the video without leaving Canvas. To add a Mediasite video to your Canvas module, do the following:

1. Navigate to **Mediasite Collection** on the course navigation pane.

Mediasite Collection

2. Locate the presentation that needs to be added and click on the title.
3. On the right sidebar, click **Share Presentation**.

SHARE

Share Presentation

4. Click **Copy** to copy the link on the next pop-up window.

Quick Link

<https://mediasite.tamu.edu/Mediasite/Play/c90d9d30c472496fa34cfb3b1be>

Copy

5. Click **Modules** on the course navigation pane.
6. Locate the module that the video will be added to and click + on the right side of the module.
7. In the dropdown menu, select **External URL**.
8. Paste the URL in the **URL** box and add a **Page Name**.
9. Click **Add Item**.
