

LMS 3rd- Party Tools: Student Fee Incursion Chart

This document includes all current third-party tools in TAMU's Digital Learning Environment. Please note that any non-enterprise/university-wide tools are not centrally supported/funded. Support for these tools is provided locally or by the vendor and the cost of each tool may vary by faculty/department/college/school.

Tool Categories

1. **No Cost** – these tools have a non-monetary agreement with the university and do not result in costs to the students, instructors, department, or college/school.
2. **Textbook Only** – these tools have non-monetary agreements with the university that result in digital textbook costs to the students.
3. **Textbook + Publisher Tools** – these tools have non-monetary agreements with the university that include digital textbook as well as additional feature costs to the students. Examples include learning environments with activities, auto-graded quizzes, study materials, and student dashboards that synchronize with TAMU’s Canvas Learning Management System.
4. **Student Pay** – these tools have non-monetary agreements with the university that are directly paid for by students.
5. **Paid** – these tools are paid for by instructor, department, college/school, or University and do not result in a cost to students.

Legend

In the “**Paid**” column:

C	Paid for by the instructor, department, or college/school
E	Enterprise (Centrally funded/supported)

3rd-Party Tool	No Cost	Textbook Only	Textbook & Publisher Tools	Student Pay	Paid
